

**STANDARD CHLORINE CHEMICAL CO. INC. SUPERFUND SITE
MONTHLY PROGRESS REPORT
MARCH 2016**

I. Actions Completed During the Reporting Period (March 2016)

Revision of the Focused Feasibility Study (FFS) to address EPA comments and incorporate information for Area 2 was completed, and the revised FFS Report was submitted to EPA on March 31, 2016.

II. Results of Sampling, Tests, and Data Received by Respondents

Data received by Respondents during the reporting period included routine data associated with the operations and maintenance of Hydraulic Control Treatment System (HCTS). These data are summarized on a quarterly-basis in an appendix to the monthly progress reports. The O&M summary for the first quarter of 2016 will be included as an appendix to the April 2016 monthly progress report.

III. Work Planned for the Next Two Months (April and May 2016)

The Group and EPA are scheduled to meet on April 14, 2016 to review the site status and discuss the FFS Report submitted on March 31, 2016.

If available, receive and review results of HCIA geotechnical assessment regarding effects of HCIA fill placement on slurry wall.

Monthly progress reports will continue to be prepared and submitted to EPA.

IV. Problems Encountered/Anticipated Delays

None this reporting period.

V. Operations and Maintenance Information

Routine operations and maintenance activities were completed. A summary of operations and maintenance activities are provided on a quarterly-basis. The O&M summary for the first quarter of 2016 will be included as an appendix to the April 2016 monthly progress report.
